

# Have your **Internship** as a **C++ Developer** with us!

Would you like to know what it is like working as a C++ Developer (f/m/d) in a role with a highly competitive salary, life-style friendly hours and no deadlines, meetings, or overtime?

think-cell is the leading data visualization software for business presentations. Our mission is to offer the most intuitive user interface for generating complex data-driven charts and slides, while at the same time ensuring seamless integration with Microsoft Office. We work on challenging visualization problems, reverse-engineer Microsoft's code, and reinvent how slides are created. think-cell is the only German company funding the C++ ISO committee delegation, so there is a good chance that components we invent will find their way into the standard. Right now, we are looking for bright, creative Developers with a solid theoretical background to join our engineering team.

## Why choose us?

- **Enrolment Based on Your Skills:** No prior experience? No problem! Join us solely based on your programming skills. No previous experience is required.
- **Authentic Practical Experience:** Unlike traditional internships, our program immerses you in authentic, real-world projects. You'll tackle challenges that mirror those encountered by our development team, gaining invaluable hands-on experience that accelerates your growth.
- **Competitive Salary:** Earn a competitive salary from the get-go (EUR 75,000-90,000 per annum), with a guaranteed raise to EUR 130,000 annually after one year of work.
- **Relocation Support:** We've got you covered! Enjoy full support with relocation to Berlin, including one-way ticket and your first month's apartment expenses on us.
- **Visa Support:** International talent is welcome! We provide visa support to ensure a smooth transition to join our team in Berlin.
- **Flexible Duration:** Choose when to start and for how long (minimum 2 months required). We're all about accommodating your schedule.
- **Thesis Writing:** Need to work on your thesis? Join us, and you can seamlessly integrate your academic and professional pursuits.
- **Lifestyle-Friendly:** We offer lifestyle-friendly working hours with no deadlines or overtimes, and no scheduled meetings.
- **International Team:** Become part of our international team of brilliant minds. Collaborate with experienced Developers and learn from the best.
- **Innovative Environment:** Join a flat organization with plenty of room for your ideas.
